

PRASANTA KUMAR SITHA

Senior Frontend Engineer | ReactJS | TypeScript | Node.js | GraphQL | JavaScript | AI Tools
pksitha1989@gmail.com | +91-9739072791 | Bangalore, Karnataka | [LinkedIn](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Senior Frontend Engineer with 8+ years of experience delivering enterprise-grade ReactJS applications for Fortune 1 clients including Walmart Global Tech and American Express. Proficient in TypeScript, Redux, GraphQL, CI/CD pipelines, and cloud-native deployment. Skilled in Node.js, ExpressJS, and REST API development, with hands-on experience in microservices architecture, MongoDB, and unit testing using Jest. Proven leader in mentoring developers, enforcing coding standards, and architecting scalable, high-performance frontend and full-stack solutions. Experienced with AI-powered development tools including Cursor AI, GitHub Copilot, and Claude AI to accelerate development velocity and enhance code quality.

TECHNICAL SKILLS

Frontend: ReactJS, Redux, TypeScript, JavaScript (ES6+), jQuery, Handlebars.js, HTML5, CSS3, Tailwind CSS, SCSS, Bootstrap

Backend: Node.js, ExpressJS, REST API Development, Microservices

Databases: MongoDB

APIs & Data: RESTful APIs, GraphQL, Apollo Client, Real-time Data, Async Programming, AG Grid

Testing & Tools: Jest, TDD, Postman, JIRA, Agile/Scrum, Web Accessibility (WCAG), A/B Testing

Deployment & CI/CD: GitHub, Jenkins, CI/CD Pipelines, Pull Requests, Build Monitoring, Release Coordination

Architecture: Microservices Architecture, REST API Design, SPA, Reusable Component Libraries, Performance Optimization

AI Tools: Cursor AI (Code Generation & Refactoring), GitHub Copilot (AI-Assisted Development), Claude AI (Code Analysis & Problem-Solving)

PROFESSIONAL EXPERIENCE

Senior Software Engineer — Redolent Infotech — Client: Walmart Global Tech

Apr 2025 – Jan 2026

Project: ADCP (Application Data Control Panel)

- Led end-to-end frontend development of ADCP using ReactJS, Redux, TypeScript, GraphQL, AG Grid, and Tailwind CSS, automating App Data service management for Walmart's platform.
- Architected a reusable, modular component library that boosted team maintainability and accelerated sprint delivery velocity; conducted regular code reviews and mentored 3+ junior developers.
- Deployed and managed CI/CD pipelines automating build/test/deploy workflows; collaborated with product owners and backend teams across Agile sprints.
- Developed Node.js and ExpressJS RESTful API services to support ADCP backend workflows; integrated MongoDB for application data persistence and wrote comprehensive unit tests using Jest to ensure service reliability.

Senior Associate Technology — Synechron Technologies — Client: American Express

Aug 2024 – Feb 2025

- Built enterprise-scale web applications using ReactJS, Redux, TypeScript, Tailwind CSS, and HTML5/CSS3 for a global financial services leader with 24/7 availability requirements.
- Designed a reusable component library that reduced feature development time by an estimated 30%; supported CI/CD pipelines for reliable release cycles in a high-stakes production environment.
- Ensured WCAG accessibility compliance across all devices; partnered with product managers, UX designers, and backend engineers to deliver frontend solutions on schedule.

Lead Frontend Developer — Infobahn Softworld — Client: Walmart Global Tech

Oct 2018 – Aug 2024

Project: Smart Communication

- Developed and maintained customer-facing web applications using ReactJS, Redux, TypeScript, JavaScript (ES6+), GraphQL, HTML5, CSS3, and Handlebars.js supporting millions of daily Walmart grocery transactions.
- Reduced component duplication by 40% through shared component architecture; built responsive Email, SMS, and Push Notification templates ensuring cross-device accessibility across Walmart's communication channels.
- Served as Frontend Lead: mentored junior engineers, drove coding standards, and led technical design reviews.
- Built Node.js and ExpressJS API services to power notification pipeline workflows (Email, SMS, Push); used MongoDB for template and event data storage, and enforced unit testing coverage using Jest across backend modules.

Web / UI Developer — US Tech Solutions — Client: Prime Focus Technologies

Apr 2018 – Oct 2018

Project: CLEAR

- Built a custom responsive web application using AngularJS to replace a legacy line-of-business system, delivering a significantly more intuitive user interface.
- Developed dynamic components using AngularJS, HTML, CSS, JavaScript, jQuery, JSON, AJAX, SASS, and Git for version control.

UI Developer — Datamatics Global Services — Client: Born Group

Nov 2017 – Apr 2018

Project: PT Astra (Indonesia)

- Contributed to PT Astra, a large-scale automotive and property platform in Indonesia, developing customer-facing web features for vehicle reservations, test drive scheduling, and vehicle service booking.
- Ensured cross-browser compatibility and responsive design across all modules using HTML, CSS, and JavaScript.

EDUCATION

B.Tech — Computer Science and Engineering

Synergy Institute of Engineering and Technology, Odisha | 2011 – 2014

CERTIFICATIONS

-
- React.js Developer Assessment — LearnTube.ai (Feb 2026)
 - Cursor AI — Great Learning (Mar 2026)
 - Advanced React for Enterprise — Udemy (Jan 2025)
 - GitLab CI/CD and DevOps for Beginners — Udemy (Jan 2025)
 - 70+ JS Challenges: DSA — Udemy (Jan 2025)
 - JavaScript Marathon Interview Series — Udemy (Jan 2025)
 - React with Redux — Synechron (Corporate, Jan 2025)
 - TypeScript — Synechron (Corporate, Feb 2025)
